

DO...

Be the star!

It's your time to shine. Send a pic that focuses on your face and is all about you. Photos that show you from the chest up are best.

Show your personality!

This is your chance to connect with other young people with experience in foster care, child welfare professionals, and FosterClub supporters.

Love it!

Choose a picture that makes you feel good. Selfies are fine! No need for a professional headshot or school photo around here.

DON'T...

Hide your face.

Make sure you have good lighting and are clearly visible.

Be a character.

If bold makeup and hair is your style, show it off – but no cosplay, no filters that distort your features, and no props.
